

It is my understanding that the NAB is seeking some sort of legislation to attempt to stop XM Radio from providing Instant traffic and weather. I have been an XM subscriber for over one year and am looking forward to this service being available in Minneapolis later this year. XM Radio is an exceptional product that has provided me many hours of enjoyment as I travel locally and throughout the US. I respectfully urge you to reject the NAB petition 04-160! In my opinion the passing of this petition would be a major set back to the peoples right to choose alternative sources for their news, information and entertainment. Such legislation should never be considered and I firmly believe such regulations infringe upon my rights under the first amendment. Again I urge the FCC to reject the NAB's petition 04-160. Best Regards, David Svoboda
